

# MOHAMMAD MAHDI SAMEI

1st Emamat, Mash'had, Iran, 99188614344

(+98) 902 505 1701 ◇ 9259samei@gmail.com

(+1) 914 222 5161 ◇ MM.Samei@shahroodut.ac.ir

linkedin.com/in/msameim181 ◇ github.com/Msameim181

## RESEARCH INTEREST

---

- Machine Learning and Deep Learning
- Computer Vision & Digital Image Processing
- Human Authentication
- Optimization and Genetic Algorithm
- Automation
- Brain-machine Interfaces

## INTERESTED WORK POSITION

---

- Image processing and vision
- Brain-machine Interfaces
- Data analytic
- Automatization and Automation
- Project Management
- UX Design

## EDUCATION

---

### Shahrood University of Technology, Shahrood, Iran

*Sep 2020 - Present*

M.Sc. in Artificial Intelligence

GPA: : 3.74/4.0

**Thesis:** In the filed of Image processing, detection, and deep learning. (On going)

shahroodut.ac.ir

#### Relevant Courses:

Neural Network (3.20/4.0), Evolutionary computing (4.0/4.0), Pattern recognition\* (3.73/4.0), Image Processing (3.0/4.0), Machine Learning (4.0/4.0), Fuzzy Systems (3.97/4.0), Deep Learning (3.7/4.0), Game Theory (3.9/4.0).

### Sadjad University of Technology, Mashhad, Iran

*Sep 2016 - Aug 2020*

Bachelor of Engineering - BE in Computer Engineering

GPA: 3.31/4.0

#### Thesis:

sadjad.ac.ir

Build a custom and powerful CMS for managing class, student, and scores. Developed with PHP and MySQL, Score: 3.87/4.0

#### Internship:

Web Development and Database structure, Score: 3.93/4.0

#### Relevant Courses:

Basics of Artificial Intelligence (3.45/4.0), Computational Intelligence (3.93/4.0), Knowledge Base System (3.45/4.0), Engineering Statistics and Probabilities (3.73/4.0), Web Programming (4.0/4.0), Logic Circuits (4.0/4.0), Operating System (3.25/4.0),

## EXPERIENCE

---

### Machine Learning Engineer, Python Developer, ParsTech AI

*Aug. 2022 - Present*

Working On state-of-the-art deep learning projects and systems such as the Security Intelligent Assistance system and some Commercial Entertainment AI systems. My job is to Build and Develop DL-based systems with technology such as Python, PyTorch and etc. To connect services, I also develop APIs with Flask or Fast-API.

**Teaching Assistant**, Shahrood University of Technology

*Sep. 2021 - Aug. 2022*

Digital Image Processing class on supervised by Dr. Hamid Hassanpour (Prof. at Shahrood University of Technology). Others are Neural Networks, Machine Learning, and Deep Learning.

**AI Research with focus on M.Sc.'s Thesis**, Shahrood University

*Mar. 2021 - Present*

On supervised by Dr. Hamid Hassanpour (Prof. at Shahrood University of Technology).

I learned a bunch of stuff on this path and field of Image Processing and Human Authentication. So This is where should I go for my thesis. Wait for the noise, news will come up soon.

**Project Management (Internship - Assistant)**, White Designers

*Feb. 2022*

A short period of internship in project management to gain experience.

[whitedesigners.ir](http://whitedesigners.ir)

It was good to practice what I'd learned and to try something new. The Game Development industry was not what I was looking for but I got the experience I needed at this company. My career goal is to gain experience in project management in the field of web development and artificial intelligence.

**Self-Employed, Freelancing**

*Oct. 2020 - Present*

Trying to focus on AI and Deep Learning skills and enhance knowledge in Python.

Worked as a consultant in optimization projects.

Improving and learning the management skills.

Work as a freelance UI/UX Designer and improving the skills.

**Self-Employed, Contracting**

*Dec. 2018 - Sep. 2020*

Improving skills in front-end, back-end (Laravel), and Python.

Learning UI and UX for the future profession.

## PROJECTS More are available at [Github](#)

---

**NeuronJ**, Self Interest - Open-Source Project

*Feb. 2022*

This is an implementation of NeuronJ work with python.

NeuronJ is a plug-in for ImageJ that allows you to create and edit neurons masks. Since we are not a neuroscientist, we wanted to make a tool that would be useful for our research, would be easy to use, and would be easy to modify.

Build With Python with no special framework for better performance.

**FuzzTrade**, Shahrood University of Technology, Dr. Morteza Zahedi

*Apr. 2021 - Jan 2022*

Create Trading Algorithm and Trading Bot Based on Fuzzy System.

We are trying to build and deploy an algorithm and a full system so it will be can trade on our behalf in most of markets. Details are confidential.

Build With Python, MQL4, MySQL. It works with the theory of fuzzy systems and investment roles.

**Neural Trader**, Self Interest

*Oct. - Dec. 2019*

A prediction algorithm to predict the stock market price based on a time-frame of the prices we have.

Uses a Neural network and regression to predict the next price and market path.

We tried to understand the market, LSTM networks, and other things to learn and create something useful.

Build With Python, Keras, TensorFlow.

**Class Assistant Website**, Sadjad University of Technology, Dr. Behzad Bakhtiari

*Oct. - Dec. 2019*

A content management system (CMS) to manage classroom, homework, track their presentation, Scoring & Evaluation, and Attendance System. Capable to handle multiple classes.  
Smooth, fast, useful, and well-designed are the most important indicators in this project.  
Used UX Techniques and UI Design for a better experience for students and the master of class. Build With Laravel (PHP), MySQL, Bootstrap.

## **CERTIFICATE** Credentials available at [Linkedin](#) or [Coursera](#) profile

## **SKILLS**

---

### **Major**

Python (Vision, Data Analytic, Automation), PyTorch, Tensorflow, Keras, Fast-API, Flask,  
Docker, Git, PHP, W&B

### **Minor**

MySQL, JavaScript, Laravel

### **Industry Knowledge**

Research and Development (R&D), Deep Learning, Image Processing, Optimization,  
User Experience Design, User Interface Design, Web Applications, Fuzzy Systems,  
Inventory Management, Stock Management, Internet of Things (IoT)

### **Interpersonal Skills**

Management, Problem Solving, Teamwork, Remote Teamwork

### **Languages**

Persian (Native proficiency)  
English (Professional working proficiency)

## **HOBBIES**

---

**Sports:** Soccer, Swim

**Indoor Activities:** Books, Musics, Movies, Cook

**Outdoor Activities:** Backpacking, Camping
