ABOUT

I'm an AI MSc graduate specializing in image processing, with six years of Python craftsmanship and four years architecting back-end and ML systems. Today, I split my time between backend development, ML/MLOps engineering, and building my own startup—bringing elegant, production-ready solutions to life, quietly and confidently.

EXPERIENCE

More detailed informations are available at [Website](#)

Product Manager, Lead Backend Developer, [MotamedeMa](#), Iran, (Remote) Nov. 2025 - Present

Skills: NestJS, GoLang, DB (PostgreSQL, Redis), Docker, Swarm, K8n, OpenTelemetry, Kibana.

- Architected a distributed NestJS microservices backend with +10 services, API Gateway, and +200 REST endpoints using RabbitMQ and TCP for inter-service communication.
- Implemented JWT/OTP authentication, Redis-backed rate limiting, and role-based access control (RBAC) with fine-grained permissions for multi-tenant SaaS platform.
- Deployed containerized infrastructure using Docker, Kubernetes (9 manifests), and integrated OpenTelemetry observability with Prometheus metrics for PostgreSQL and Redis.

Lead Backend Developer, Technical Architect, [ParsTechAI](#), Iran, (Hybrid) Aug. 2022 - Jan. 2026

Skills: Python (FastAPI, Django), ML (Pytorch), DB (PostgreSQL, Redis), Docker, CI/CD, NginX, GoLang, OpenTelemetry, Kibana.

- Spearheaded the development of ParsChat AI assistant - for support, customer service, Sale Assistance and QA - boosting efficiency by 30% and cutting response time by 50%.
- Integrated ParsChat with 5 platforms, managing 500 requests per second and over 1 million messages daily.
- Structured a secure system with 3 user types and sub-users, enhancing security by 90% with KeyCloak.

Product Manager, Lead Back-end Developer, [Sensolife](#), Portugal, (Remote)

Apr. 2024 - Aug. 2024

Skills: Python (FastAPI, Django), DB (PostgreSQL), Docker, CI/CD, NginX.

- Designed a bilingual Voice-Chatbot for device integration and multi-level user access, serving 300 users with a 3-second response time.
- Directed a private launch for 100 users, preparing for a public release to 10,000 users in 3 months.
- Enhanced system capacity to manage 50,000 requests per minute and 10 million concurrent users.

Product Manager, Lead Back-end Developer, [AI Bridge](#), Germany, (Remote)

Aug. 2022 - Apr. 2024

Skills: Python (FastAPI, Django), DB (PostgreSQL, Redis), Docker, CI/CD, RASA, NginX, Kubernetes.

- Created an AI-based Assistance system with LLM models, integrated with MS-Teams and 6 platforms.
- Built a high-capacity AI chatbot managing 10,000 requests per second with RabbitMQ and FastAPI.
- Implemented a Task Management system with Notification Service, increasing task completion by 40% and reduced notification delivery time by 50%.
- Launched a Reminder Service for 10 periodic reminders, integrating with various tools.

- Developed a flow-based chatbot using RASA, supporting 10 million users with 15 AI services. Managed high request loads using Nginx and Kubernetes.
- Architected 'OneUpBot', handling 1 million requests per hour across three platforms. Integrated monitoring services using Grafana and Loki.

PROJECTS

More are available at [GitHub](#) and [Website](#)

n8n Node Instagram Integrations, Self Interest - Open-Source Project Oct. 2025

- Developed and published TypeScript npm package with OAuth2 authentication, 20+ Instagram API operations (messaging, content publishing, webhooks), and automated token management.

Chromatrace - Best Practice in Python Logging, Self Interest - Open-Source Project Dec. 2024

- Support for trace IDs and request IDs, resulting in an enhanced event tracing process that is up to 80% faster.
- Customizable log formats and settings along with 3 different log handlers and frameworks integration.

EDUCATION

Shahrood University of Technology, Shahrood, Iran Sep. 2020 - Sep. 2023
M.Sc. in Artificial Intelligence shahroodut.ac.ir

Thesis: Studied on Bone Age Assessment for Pediatric Patients Application.

Neural Network (3.20/4.0), Evolutionary computing (4.0/4.0), Pattern recognition (3.73/4.0), Image Processing (3.0/4.0), Machine Learning (4.0/4.0), Deep Learning (3.7/4.0)

Sadjad University of Technology, Mashhad, Iran Sep. 2016 - Aug. 2020
Bachelor of Engineering - BE in Computer Engineering sadjad.ac.ir
Knowledge Base System (3.45/4.0), Engineering Statistics and Probabilities (3.73/4.0)

SKILLS

Hard Skills

Python (FastAPI, Vision, Data Analytics, Automation), NestJS, GoLang
DB (PostgreSQL, MySQL, Redis)
Observability (OpenTelemetry, Kibana, Prometheus), W&B
Git, CI/CD, Docker, Kubernetes, NginX, Caddy

Soft Skills

Management, Teamwork, R&D, Creativity, Mentoring and Teaching

Industry Knowledge

Product Management, Deep Learning, Image Processing, Optimization, IoT

Languages

Persian (Native)
English (Professional proficiency)

Last update: Dec, 2025
